

MKP-300

Wireless keypad for MICRA system which allows arming / disarming and controlling devices connected to the module, without the need to have an own remote control key fob. This makes it an ideal control solution wherever the system is expected to be operated by many different people.

Features:

- arming/disarming, triggering panic alarm or switching on/off devices connected to the MICRA system by means of codes,
- LEDs indicating the arm/disarm commands,
- backlit keys for easy keypad operation in dark rooms,
- a flap for protection of keys

Application:

Control of the MICRA system in small-size buildings, such as kiosks, summer houses, boutiques, freestanding garages and workshops

Delivery set:

Keypad, CR123A battery, user manual

Environmental class	II
Battery working time (in years)	okolo 3 lat
Operating temperature range	-10...+55 °C
Standby mode current consumption	0,08
Max. current consumption	20
Weight	164
Maximum humidity	93 ±3%
Operating frequency band	433,05 ± 434,79
Radio communication range (in open area)	do 200 m
Battery	CR123A 3 V
Dimensions	144 x 80 x 27
