

DS-2DP1636Z-D

PanoVu series 16MP 360°Panoramic+PTZ Camera

Hikvision PanoVu series DS-2DP1636Z-D panoramic + PTZ cameras, with its integration design, are able to capture panoramic images as well as close-up images to give consideration to both panorama and details. The panoramic images are captured by four sensors, which could realize 360°panorama monitoring. The design of integration model and high speed PTZ offers the function of fast detail positioning over panoramic area.

Furthermore, with its advanced video analysis and multiple targets tracking algorithm, PanoVu cameras also feature a wide range of smart functions for multiple targets within the panoramic view filed, including intrusion detection, line crossing detection, region entrance detection, region exiting detection. The cameras could also output alarm signals to linkage the PTZ for tracking, benefitting users with great improvement on security efficiency.
